On Tuesday, as part of ‘Safer Internet Day’, the students in Year 5 participated in their first ‘Outreach Virtual Classroom.’ This was a wonderful opportunity for our students to be part of a virtual classroom along with 99 other schools in Australia. The title of the lesson was ‘Keep it Sweet Online’ and it focused on the students learning about how to keep their personal information and identity safe on the internet. They also learnt how to be safe on different types of websites and who to go to if they need help. The students were given the opportunity to respond to interactive questions and feedback their own experiences on the internet. The students of Year 5 are now feeling more confident in their rights and responsibility on the internet and are feeling empowered to identify and seek help from those adults they trust.
